

Gravity

Adam Wheatley

You have seen my ends
And You know my beginnings
Like a fashion my heart has come and gone I would never stray
But I am prone to wander
Though grace has kept me coming back for me You are just like gravity
You come in close and pull me back to You
I would never run away
No matter where I go You stay with me
Yeah, You're just like gravity I have raised this wall
And built up my defenses
But You always know how to break me down And despite how hard I fall
You look past my secrets
And search me till I finally am found You are just like gravity
You come in close and pull me back to You
I would never run away
No matter where I go You stay with me
Yeah, You're just like gravity
