Block Out the World

Maxeen

There's a clash of information between my ears
I'll shut off my eyes in hopes, it disappears
Jammin' ideas down my throat
So I swallow the belief that we're on
Some secret roadsSo I block out the world with headphones on
It's the only thing I can do
When I don't wanna talk to no one
Block out the world with headphones on
It's my only escapeI'm losing you in trust but I can't help but feel
That what you say is not, it's not what's real
I wanna feel the case but the facts aren't straight
And if I think you're guilty, I won't participateSo I'll block out the world with headphones on
It's the only thing I can do
When I don't wanna talk to no one
Block out the world with headphones on
It's my only escapeI'll block out the world with headphones on
It's the only thing that works
When I don't wanna talk to no one
Block out the world with headphones on
'Cause I don't understandBlock out the radio, block out the TV show
Block out these visions that trouble me so
I feel sick again, my blood is running thin
Digesting too much of your negative information
Digesting too much of your negative informationBlock out the world
Block out the world
Block out the worldBlock out the world with headphones on
It's the only thing I can do
When I don't wanna talk to no one
Block out the world with headphones on
It's my only escapeBlock out the world with headphones on
It's the only thing that works
When I don't wanna talk to no one
Block out the world with headphones on
'Cause I don't understandAnd what would happen if we all stopped buyin'
And to the fear that the selling is weak
These losers scratch their heads in confusion
This is how the strong become the meekBlock out the world
Block out the world
Block out the world

Block
