

# Zombie Executioner

## Six Feet Under

chainsaw mutilation  
zombie decapitation  
cutting off the head spurting necks attached to torsos  
twitching spasms involuntary  
the heart is still beating even after death  
a living dead body I kill and dissect  
experimenting on dead bodies  
torturing as I cut off extremities  
blasting through genital cavities  
cutting through its guts  
eyes pulled out and skull sawed open  
brain removed to electrically shock  
burn the seizing flesh  
just to watch you scream in painzombie executioner  
experimenting on dead bodies  
abuse of the corpse  
strength through the flesh  
the undead flesh enlightens me  
zombie executionerI kill with fervor lust and despise  
tearing up flesh killing dead bodies  
bleeding  
the tongue has been ripped out  
slaughtering  
faces have been ripped off  
awaken the dead just to kill them  
I chant the ancient curse  
this plague cant be reversed  
the moon is bright and full  
the chainsaw ripping through more victims  
chewed up by my weapon I test inhuman practices  
on the undead flesh a blood soaked body with  
no legs or hands  
screaming and drooling innards down its chin  
a beginning to and end  
of the human racechainsaw mutilation  
zombie decapitation  
cutting off the head spurting necks attached to torsos  
twitching spasms involuntary  
the heart is still beating even after death

a living dead body I kill and dissect  
zombie executioner  
experimenting on dead bodies
