No Matter What They Say

Svrcina

I'm not leaving here without you now
No matter what they say
No matter what they say

Knives will be drawn,
drawn between us.
Mountains of gold,
gold turned to rust.

I don't know where you are
but I still see your face.
When the stars collide,
I'll pray the rest of my life
the rest of my life

I'm not leaving here without you now
No matter what they say
No matter what they say
I'm not leaving here without you now
No matter what they say
No matter what they say

[Oh oh oh oh...]

Sky coming down,
time running out.
First as you came
give me rest.

Night can drown out the light,
can swallow us whole
but when stars collide
we'll set our hearts on fire,
our hearts on fire.

I'm not leaving here without you now
No matter what they say
No matter what they say
I'm not leaving here without you now
No matter what they say

No matter what they say

[Oh oh oh oh...]

The sky is coming down
and time is running out
but I'm not leaving here without you now.
They can say what they will do
I'm a fighter and a fool
but I'm not leaving here without you.

I'm not leaving here without you now
No matter what they say
No matter what they say

I'm not leaving here without you now
No matter what they say
No matter what they say
I'm not leaving here without you now
No matter what they say
No matter what they say

I'm not leaving here without you now
No matter what they say
No matter what they say
