

# That Body

## Ian Isiah

Oh, Jeremih, yeah, yeah, yeah  
Oh, Jeremih, yeah, yeah, yeah  
Bring it

Her hips wave in the ocean in ways you wouldn't believe  
She swear that she got that potion, well I hope there's plenty for me  
'Cause I been searchin' for somebody to cater, cater to all my needs

And you look like your willin' to do the favor  
So come with me and let me work that body

Body, body, body, ah ooh  
You know just how I like it naughty  
Naughty, naughty, naughty, do you?  
Yeah, we got plenty of Bacardi

Bacardi, Bacardi, Bacardi and juice and fruit for you  
A private after party

Party, party, party for two, for two  
You can get my body, my body all over your body, baby

Your body all over my body, girl  
You can get my body, my body all over your body, baby

Your body all over my body, girl  
I'm feelin' like I should tip ya the way you're grindin' the pole  
You're hot and fresh out the kitchen, here's a taste of that pot of gold

You make me feel like I'm up on a vacation  
Cooler than summer breezes

Girl, get your groove back better than in Jamaica  
Hope you don't mind if I'm behind that body

Body, body, body, ah ooh  
You know just how I like it naughty  
Naughty, naughty, naughty, do you?  
Yeah, we got plenty of Bacardi

Bacardi, Bacardi, Bacardi and juice and fruit for you  
A private after party

Party, party, party for two, for two  
You can get my body, my body all over your body, baby

Your body all over my body, girl  
You can get my body, my body all over your body

Your body all over my body  
I love it when you roll

And still manage to clasp that, clasp that ass, clasp that  
Just keep the candles on

And maybe I could wax that, wax that ass, wax that  
Body, body, body, body, ah ooh, ah ooh  
You know just how I like it naughty  
Naughty, naughty, naughty, do you?  
Yeah, we got plenty of Bacardi  
Bacardi, Bacardi, Bacardi and juice and fruit for you  
A private after party  
Party, party, party for two, for two  
You can get my body, my body all over your body, baby  
Your body all over my body, girl  
You can get my body, my body all over your body  
Get that body all over my body, girl
