

Enchanted

Delerium

Prowling in the night, hiding 'neath my fright
Manipulate my sigh, thief Whenever you steal, my punishment's real
You gave me sorrow Invading my own value, parading my shy security
While gripping my innocence, thief Whenever you steal, my punishment's real
You gave me sorrow
Sorrow, sorrow, sorrow, sorrow Whenever you steal, my punishment's real
You gave me sorrow Whenever you steal, my punishment's real
You gave me sorrow
Whenever you steal, my punishment's real
You gave me sorrow Whenever you steal, my punishment's real
You gave me sorrow
