It's Been a Million Years

Elf Power

It's been a million years since I last saw the caveman.
I like the way he walks, I like the fire he builds.
We hunt the beasts and make the burkas,
We go to sleep at night.
We go to sleep at night under the starry sky.
It's been two million years since I last saw a caveman.
I like the way he walks, I like the fire he builds.
We hunt the beasts and make the burkas,
We go to sleep at night.
We go to sleep at night under the starry sky.
