Sugarpill

Kyler England

It's best if you don't say anything
Just hold me hard
Stand me up straight
Save me from my misery
If just for tonight
Be my sugarpill
Hold me until I get my fill
I know nothing is gonna fix me
I just need a place to be
Be my sugarpill

I come to you
Battered and bruised
Not for a cure
No I'm no fool
Don't wanna talk
About what I've been through
Just take me home
And be my sugarpill
Hold me until I get my fill
I know nothing is gonna fix me
I just need a place to be
So be my sugarpill

So help me escape this heartache
Take me far away
And be my sugarpill
Hold me until I get my fill
I know nothing is gonna fix me
I just need a place to be
So be my sugarpill
