I Never

Spring Breakup

I never wanted to feel like this
I never thought you'd make mistakes like this
It never was that you and now it's time you knew
I never ever, I do not trust youI never wanted to be like this
I never thought you'd make mistakes like this
It never was that you and now it's time you knew
I never ever, I do not trust youI'm tired of sittin' home waitin' for the phone to ring
While you're out doin' any and everythin'
And everybody sees how you're playin' me
Callin' me your girlBut I'm not gonna sit around and take this foolishness
You're actin' like you can't see the matters in my head
You better play it cool or this game you'll lose
I'm tellin' you the truthSo don't you try to tell me you've been true to me
When I can plainly see that in your heart you're still a cheat
And I know that you're lovesick it's not happenin'
So don't you come to me thinkin' I'll believe
'Cause it won't work for meI never wanted to feel like this
I never thought you'd make mistakes like this
It never was that you and now it's time you knew
I never ever, I do not trust youI never wanted to be like this
I never thought you'd make mistakes like this
It never was that you and now it's time you knew
I never ever, I do not trust youWhat makes you think I would sit here and be fool
If you think that it's true you don't have a clue
I just could not believe that you're playin' me
Boy, what's wrong with you?Since you're the man thinkin' that you could play a game
I think I have to show you that you don't mean a thing
I'm lettin' you go so if you didn't know
I am in controlSo don't you try to tell me you've been true to me
When I can plainly see that in your heart you're still a cheat
And I know that you're lovesick it's not happenin'
So don't you come to me thinkin' I'll believe
'Cause it won't work nowI never wanted to feel like this
I never thought you'd make mistakes like this
It never was that you and now it's time you knew
I never ever, I do not trust youI never wanted to be like this
I never thought you'd make mistakes like this
It never was that you and now it's time you knew
I never ever, I do not trust youI never wanted to feel like this

I never thought you'd make mistakes like this
It never was that you and now it's time you knew
I never ever, I do not trust youI never wanted to be like this
I never thought you'd make mistakes like this
It never was that you and now it's time you knew
I never ever, I do not trust youBaby, did you think you could play me
Like I would never know could you be so shady
Now you're gonna see you should never spend your
Time with me 'cause there's no you and me
We can never beI never wanted to feel like this
I never thought you'd make mistakes like this
It never was that you and now it's time you knew
I never ever, I do not trust youI never wanted to be like this
I never thought you'd make mistakes like this
It never was that you and now it's time you knew
I never ever, I do not trust youI never wanted to feel like this
I never thought you'd make mistakes like this
It never was that you and now it's time you knew
I never ever, I do not trust youI never wanted to be like this
I never thought you'd make mistakes like this
It never was that you and now it's time you knew
I never ever, I do not trust youI never wanted to feel like this
I never thought you'd make mistakes like this
It never was that you and now it's time you knew
I never ever, I do not trust youI never wanted to be like this
I never thought you'd make mistakes like this
It never was that you and now it's time you knew
I never ever, I do not trust you
