Last Year

J-Dawg

I used to believe in diamonds and things
I used to believe in you and me
But now I believe in nothingI used to wake up in the morning
And reach for that bottle or glass
But I don't do that anymore
Kicked my habits out the front doorAnd I'm always talking to somebody else
She doesn't even know my face
I don't know how I feel
I'm all over the placeAnd when I go out, I don't feel anything
I just keep on spending my money
Soon it will be gone
And then I'll have to write another songWhat a year this day has been
What a day this year has been
Please, don't get me wrong
I just don't know where time has goneWhat a year this day has been
What a day this year has been
Please, don't get me wrong
I just don't know where my mind has gone
