

# Last Year

**J-Dawg**

I used to believe in diamonds and things  
I used to believe in you and me  
But now I believe in nothing I used to wake up in the morning  
And reach for that bottle or glass  
But I don't do that anymore  
Kicked my habits out the front door And I'm always talking to somebody else  
She doesn't even know my face  
I don't know how I feel  
I'm all over the place And when I go out, I don't feel anything  
I just keep on spending my money  
Soon it will be gone  
And then I'll have to write another song What a year this day has been  
What a day this year has been  
Please, don't get me wrong  
I just don't know where time has gone What a year this day has been  
What a day this year has been  
Please, don't get me wrong  
I just don't know where my mind has gone
