Over It (feat. Dia Frampton)

The Crystal Method

Oh my
Oh myOh my
I got a lot on my mind
I want to tell you I'm wrong
I want to tell you that I f-cked up
I'm gonna tell you the truthA fist to purple your eyes
It's gonna hurt for a time
But if you let me, I'll give you a ride
Oh myOh myIt's my fault, that you
It's my fault, that that you
It's my fault, that you
It's my fault, that that youIt's my fault that you're walking away
I told you 10 times I'm gonna change
I don't blame you thinking I'm full of it
If you let me honey, I will become
Your safety, shade tree, favourite song
I don't need this crazy 'cause I'm over it
Yeah 'cause I'm over itAnd I thought that it would change
But you gave me a reason to stay away
We stay the same, and I think about the fall
You gave me a reason to want it all
We never winIt's my fault that you're walking away
I told you 10 times I'm gonna change
I don't blame you thinking I'm full of it
If you let me honey, I will become
Your safety, shade tree, favourite song
I don't need this crazy cause I'm over it
Yeah 'cause I'm over it'Cause I'm over it
