

You, Me & the Sea

Green River Ordinance

Let the sun kiss your freckled shoulders
Let the tide rock you like a song
What a beautiful thing, here in our reach
You, me & the sea These days will be our great companion
In the night we'll make our great escape
Couldn't ask for any more
as we stand on this shore
It's all right When the waves crash
We won't look back
Let their slow dance be our soundtrack
The stars are the spotlight
We'll get lost in them all night
Drift into harmony
You, me & the sea
In a world that's always spinning so fast
It takes a little slowing down
I fall into you again my lover my friend
over and over When the waves crash
We won't look back
Let their slow dance be our soundtrack
The stars are the spotlight
We'll get lost in them all night
Drift into harmony
You, me & the sea You got me on fire
You pull me out in your willing love
A flood of desire
Oh and I can't get enough
No I can't get enough
When the waves crash
We won't look back
Let their slow dance be our soundtrack
The stars are the spotlight
We'll get lost in them all night
Drift into harmony
You, me & the sea Let the sun kiss your freckled shoulders
Let the tide rock you like a song
What a beautiful thing, here in our reach
You, me & the sea
