

Unlove You (From "Star" Season 2)

Star Cast

Driving by the park tonight,
I was stopping at the light,
& you reminded me of all those games,
Posted at the coffee shop, we would sit & talk for hours,
Never thought in a million years things would change
Tied to my heart like a kite to a string, I'd follow you where the wind would blow
We were somethin but you
were frontin,
Now im sittin here wishing that I could get you outta my head
Baby I tried but I can't unlove you, you know you
got your hooks in my soul
Feels like I'm dying slowly all because you
And your love will never let me go
Haunted by the picture frames,
I can almost touch your face, memories can really be hell sometimes
I thought I could walk away but it aint that easy babe, when you're curled up and lonely every night
We were
somethin but you were frontin,
Now im sittin here wishing I could get you outta my head
Baby I tried but I can't unlove you, you know you got
your hooks in my soul
Feels like I'm dying slowly all because you
And your love will never let me go
I keep turning the page and I turn out the lights
But im back in the same old place a thousand and one times
Takes all the breath out of me, I just can't escape, I cant do this no more.
Baby I tried but I can't unlove you, you
know you got your hooks in my soul
Feels like I'm dying slowly all because you
And your love will never let me go
