

Wastin' Time

[Ron Sexsmith](#)

A day is long, many hours to fill
It's alright if we let a few minutes spill
Where's the crime in wastin' time with you? Don't have to run when the pistol's fired
It's alright if we let the meter expire
Where's the crime in wastin' time with you? People love to talk about
Big things they're gonna do
Or they've been through it all We can just remove ourselves
We don't have to prove ourselves
Worthy of their approval You're only young once
Well, that's one point of view
It's alright if we've nothing better to do Where's the crime in wastin' time?
Where's the crime in wastin' time?
Where's the crime in wastin' time with you?
