Nightflight

The Nightflight

Verse 1
Dark is the night, frightful silence around
Only the moonlight shining, there's not a soundI'm not afraid 'cause you're here by my side
You'll be my shelter and hold me so tightBridge
I have every trust in you
There is nothing I won't doRefrain
Oh, take me on a nightflight, nightflight, nightflight
The others fall asleep
and we fly awayOh, take me on a nightflight, nightflight, nightflight
We fly through the night
'Til we meet the dayVerse 2
Up and away, oh baby, right in the night
Never been flying so high as a kiteThis night I'm havin' the time of my life
It's so exciting, we're higher than highBridge
I won't need no sleep tonight
Never stop it feels so right
