

Lonely Life

Jessica Vale

Oh, this lonely life
God won't make it right
To love what isn't
We won't let him in I don't know how I don't know, why, I don't know when
It's something my twisted heart will never comprehend
Am I a fool to place my trust in all my friends?
'Cause now I find myself alone again Oh, this lonely life
God won't make it right
Tonight, we're busy
We won't let him in Please take it all
Only [Incomprehensible] stay Oh, this lonely life
God won't make it right
To love what isn't
We won't let him in Why, this lonely life
God won't make it right
To love what isn't
We won't let him in
