Injection

Widek

You spend your days counting the hours you're awake
And when night covers the sky you find yourself doing the same
It's a burden you've been burying in spite of all your prayers
As the light turns off inside your heart do you remember
What it's like to care

Knees are weak, hands are shaking, I can't breathe

Give me the drug, keep me alive, give me whats left of my life
Don't let me go

Pull this plug, let me breath
On my own I'm finally free
Don't let me go

The trail of crumbs you left somehow got lost along the way
If you never meant to leave then you only had to stay
With the memories that haunt us, I cherish just the same
As the ones that bring us closer to the sky, no matter how grave

Yet I fall through these clouds and she's screaming

Give me the drug, keep me alive
Give me whats left of my life
Don't let me go

Pull this plug, let me breath
On my own I'm finally free
Don't let me go

This grip loosens but it never breaks
We carry nothing but a name you will forsake
Your words are always there to break my fall
And now I find the comfort to see through it all

Guide me through uncharted waters
Before we lose our way again
Will you be my compass
Until forever, until forever ends

Knees are weak, hands are shaking
I can't breathe

Give me the drug,keep me alive
Give me whats left of my life
Don't let me go

Pull this plug, let me breathe
On my own I'm finally free
Don't let me go (Repeatx3)
