

# We Live On Day to Day

## Black Oak Arkansas

Now if you ever think twice  
about takin our advice  
to live on day to day.  
Aw now woman with the golden eyes,  
how can we make you realize  
that we live on day to day?Runnin wild on a foggy day  
can't see two feet in front of me.  
But I'll always say,  
we live with danger everyday (the bomb)  
there may never be another way  
to see into the unknown of any day.So we live on day to day.  
Yes we live on day to day.Live every minute of your life my friend.  
you never know when it may end.  
But I'll always say,  
live every second of your life my friend  
at least you'll know it did begin,  
after the fog blows away.So we live on day to day.  
Yes we live on day to day.Aw now woman with the golden eyes,  
how can I make you realize  
that we live on day to day?
