

Lungful

Douglas Dare

Take in a breath
and treasure the light
don't let them see you move
you've got nothing to prove Hold out your arms
and place them in mine
don't let me feel you shake
in fear they find mistake Silence this song
with bugles that play
you need to hear the call
they wishing you to fall
don't let them see you fail I will not let you fail
I will not let you fail
I will not let
You fail Take in a breath
and treasure the light
Take in a breath
and treasure the light
Take in a breath
and treasure the light
don't let them see you fail
Take in a breath
and treasure the light
