

Do What U Like

Bad Boy Bill

This thing is starting
We got to push that feeling
We got your party
We got your song so sing it

Seems like you are someone who likes to get down so do what you like
Won't you show your moves to me

We're on a roll
Get it together, keep pushin'
So start your stroll
You got the moves so let's see em

Seems like you are someone who likes to get down so do what you like
Won't you show your moves to me

This thing is starting
We got to push that feeling
We got your party
We got your song so sing it

Seems like you are someone who likes to get down so do what you like
Won't you show your moves to me

Sing it
Bring it
Sing it

Sing it
Bring it
