

# If I Don't Wake Up

## Suicidal Tendencies

Why do I wake up in the morning - nothing's since the day of my birth  
Why do I wake up in the morning - I make no difference on this earth  
Streigh has left - has to be - something  
has died inside of me  
If I don't wake up in the morning - at my funeral world anyone even care  
If I don't wake up in the morning - would anyone even be there  
You can put me down - you can put me out, you  
can try to ignore  
But now you're gonna hearing me when I shout WAKE UP  
Why should I wake up in the morning - it be just  
another wasted day  
Why should I wake up in the morning - don't do nothing right anyway  
That was then - not anymore - now I go  
blasting out the door  
I'm gonna wake up in the morning - I'll prove you wrong I will not fail  
I'm gonna wake up in the morning - I'm gonna blaze a brand new trail  
Might not be smart, but if I'm strong  
I know for sure no one ever will prove me wrong
