Give You My Love

Ruthie Foster

Youve been looking on the dark side today
An angel hangover thats lost his way
I know its frightning when your head aint
Where its supposed to be
Oh my love its a sad thing to seeWhen you find your love slipping away
And the walls are tumbling down
Ive got a pocket full of miracles
Ill guide you back around and I will...Give you my love, give you my love
Keep on giving my love to you
Youll never find another love so true
Ill give you my love, give you my love
Keep on giving my love to you
Time will make a way to help us on throughIf theres ever any reason you
Need a place to be
Or you get tired of the shadows
Just call on meLife can be a hard road
And you wanna just give in to it
Youve been round for too long now
Youve gotta get through it
When you find yourself searching for answers
And youre waiting on a sign
Ill guidenyou ti a miracle
Take my hand and IllGive you my love, give you my love
Keep on giving my love to you
Youll never find another love so true
Ill give you my love, give you my love
Keep on giving my love to you
Time will make a way to help us on through
