

Only Us (feat. Little Nikki)

Paul Oakenfold

Another sound, we are two beating hearts
We've fallen down like stars lost in the dark
I wanna feel you like an echo
Whisper the word and never let go
Tonight, let's leave it all behind
Put your hand in mine like it's only us
It's only us, it's only us, yeah
'Cause tonight
When this all disappears
We'll still be here 'cause it's only us
It's only us, it's only us, yeah
Tonight, let's leave it all behind
Put your hand in mine like it's only us
It's only us, it's only us, yeah
The colors fly so fast like broken glass
It's you and I at last, no looking back
I wanna feel you like an echo
Whisper the word and never let go
Tonight, let's leave it all behind
Put your hand in mine like it's only us
It's only us, it's only us, yeah
'Cause tonight
When this all disappears
We'll still be here 'cause it's only us
It's only us, it's only us, yeah
Tonight, let's leave it all behind
Put your hand in mine like it's only us
It's only us, it's only us, yeah
