

Bloody Mary

Gwar

Ice world, eternal night
Doors are chained and barred
Toiling slaves die in droves
This life is hard
There's a Balrog in the woodpile
In the corner, dead canary
Going down to the dungeon
To see my Bloody Mary
Bloody Mary, pretty scary
She knows what to do
With the bone I gotta bury
Bloody Mary, she's from the surface world
Bloody Mary, slutty very
She used to shave her pussy
Now it's getting pretty hairy
Bloody Mary, she's an American girl
Torches, chains
Sweaty, straining flesh
The womb explodes
In a meat-maggot mesh
The mutant we made
Was really beautiful, baby
We fingered and felched it
Then sprayed it with rabies
Bloody Mary, pretty scary
She knows what to do
With the bone I gotta bury
Bloody Mary, she's from the surface world
Bloody Mary, slutty very

I treat my girlfriends
Even better than Chuck Berry
Bloody Mary, she's an American girl
Oh Bloody, Bloody Mary
Your lips are turgid, your ass is cherry
I'll never, never let you die
Bloody, Bloody
The women bleeds but does not die?
When you are immortal

The space of many years
Seems just as little
As the weight of her tears
That she cried as she waited
As the worms, they ate her brain
I had her animated
But you know it's not the same
Bloody Mary, pretty scary
She knows what to do
With the bone I gotta bury
Bloody Mary, she's from the surface world
Bloody Mary, fucking scary
She knows what to do
With the bone I gotta bury
Bloody Mary, she's an American girl
She's an American girl
She's an American girl
In an Antarctic world
Nothing but death there for you
