

# High And Dry

Pete Kuzma feat. Bilal

Two jumps in a week  
I bet you think that's pretty clever, don't you, boy?  
    Flying on your motorcycle  
    Watching all the ground beneath you drop  
        You'd kill yourself for recognition  
        You'd kill yourself to never ever stop  
            You broke another mirror  
        You're turning into something you are not  
        Don't leave me high, don't leave me dry  
        Don't leave me high, don't leave me dry  
    Drying up in conversation  
        You will be the one who cannot talk  
            All your insides fall to pieces  
        You just sit there wishing you could still make love  
            They're the ones who'll hate you  
        When you think you've got the world all sussed out  
            They're the ones who'll spit at you  
            You will be the one screaming out  
        Don't leave me high, don't leave me dry  
        Don't leave me high, don't leave me dry  
        It's the best thing that you have ever had  
        It's the best thing that you have ever had  
        Don't leave me high, don't leave me dry  
        Don't leave me high, don't leave me dry
