

Wonderful

Childish Gambino

[Featuring: Josh Osh][Hook: Josh Osh]We finally made it
And now we sailin?

I never dreamed we'd get this far
My heart keeps asking

How did it get so wonderful? So wonderful
How did it get so wonderful? So wonderful

[Verse 1: Childish Gambino]You can call the shots, I'm going to my aunt's house

What's it all about? Lookin' like I'm Millhouse

What's it all about? I ain't get my bike back
I ain't get my bike back, I know where he live at
I know what he look like, I know what I live like

Five to a bed, head to toe, that's a good night

Five to a bed, head to toe, with the fan on

I don't think these other niggas know what your man on

I used to have to sneak just to get my food
Free lunch made it feel like they don't approve
Sell a card for a dollar used to be the mood
I wanna be Jabari man that nigga cool

I wanna lash out nigga keep your cool

All my friend did was draw something now he outta school
?Cuz everything was always ?Show me what you're made of?

And everybody knew somebody who was laid up

I didn't need it, momma said it's a lesson

Some people will never like you

Don't let'em catch you stressin?

You know a code's a code, the world can't stop'em

Eating out rat holes and Cheerios boxes

This nigga think he hot shit, he think he good at everything

I just didn't wanna get left out more

My little sis? mom got shot, she in the newspaper

Prayers couldn't save her, she died a day later

Like my cousin got the HIV

When she bust the leg open playing jump rope

Should I tell them kids what the fuck's up?

They gone judge her and me

Man fuck them, we livin?, all is forgiven

I fucked up royally

But now that's who we are man you gotta use the royal "we"

This is royalty, and this is all I ever wanted 'cuz
[Hook x2]
