Don't Wait for Me

Morris Day

You think that you in love with me
I think you're beautiful and should be free
I'm just a young man got lots of time
Right now that kind of thing isn't on my mind

Don't wait for me
(I'll just make love to you girl)
Then set you free

I'm just a young man
What makes you think that I have the time oh oh
2 people falling in love in my prime

You think I'm afraid of how it would be
Might be too cautious girl don't blame me
Time after time again baby I tried
Don't take it personal girl
Still on your side no

Don't wait for me
(I'll just make love to you girl)
Then set you free

I'm just young man
What makes you think that I have the time oh oh
2 people fall in love in our prime
break it down

Don't wait for me
(I'll just make love to you girl)
Then set you free(to you girl)
(I'm a bad influence of the word love baby)

let me talk to you for a minute baby
I mean who wants to be in love
(I'm a bad influence on the word love)
Not me(oh girl) not now

Don't wait for me
(I'll just make love to you girl)

Then set you free

I'm just young man
What makes you think that I have the time oh oh
2 people fall in love in our prime

Your love is forever so you say
My love is reckless girl day to day
Girl can't you understand baby don't be blind
I'm just a drifter girl don't waste your time
Listen baby

(Guitar plays)

Don't wait for me
(I'll just make love to you girl)
Then set you free

I'm just young man
What makes you think that I have the time oh oh
2 people fall in love in our prime

Baby I'm just a (young man)
baby (baby can't you understand)
