G Turns to D

Sloan

Songs are all about you
And I'm tellin' everyone I'm doin' fine without you
I hurt you but I helped you
You may think I've a lot of nerve
But I deserve some credit or atleast an editTake out the part that breaks my heart
And makes me sound uncaring
If you eliminate the swearing
Then I could show my mother
That you can go from one chord to anotherG will turn to D, you'll turn to me
And you'll say, you have done me wrong
I wrote these songs about itShe's aware it's all been done before
It's another song in this key
Yeah, but this one's about me
That all the validity she needsCriticism's brutal but I don't really mind
Yeah, she's put it out on vinyl
But it's pretty hard to find, but you'll hearG will turn to D, you'll turn to me
And you'll say, you have done me wrong
I wrote these songs about itI wish I'd never taught her how to play
I knew she'd get me I should have known
Now her hands are on the fretboard
In an unfamiliar way and it's tellin' meShe's aware it's all been done before
It's another song in this key
Yeah, but this one's about me
I may not wanna hear the words toG when put with D
But if you take what you're shown
Learn on your own
Then everything you do belongs to you
But know that you are on your ownOn your own, on your own
On your own, on your own
On your own, on your own
On your own, on your own
