I Will

Billy Gilman

It amazes me how I can see
There's still so much more
After all this time, it's not hard to find
Why I adore youYour smile, your heart, my friend
You make me all that I amIf you can tell me how
I could love you more than I do now
I willAnd I know without a doubt
I will give you all I have to give
For as long as I live, I willAs the years go by I know that I
Will never leave your side
You're the world to me and I'll always be
Right here for youUntil the last breath I take
I'm yours for the rest of my daysIf you can tell me how
I could love you more than I do now
I willAnd I know without a doubt
I will give you all I have to give
For as long as I live, I willI can't imagine how I would be now
Without you here with meIf you can tell me how
I could love you more than I do now
I willAnd I know without a doubt
I will give you all I have to give
For as long as I live, I will
For as long as I live, I will
