

Champions (From "Hands of Stone")

Usher

[Usher]

No more war, no more war
What are we fighting for
El dolor que trae el fracaso
De la duda y la traición
Veo una vida hecha pedazos
Y ahí- es donde nace un campeón I'll fight for my country
You fight for your country
We see the victory
They'll get the victory
Man a man, heart to heart
Face to face worlds apart
You and I, we're champions
Champions, champions
You fight for my country
I'll fight for your country
We see the victory
They'll get that victory
Man a man, heart to heart
Face to face worlds apart
You and I we're champions
Champions, champions De amargas y esperanzas
De las penas y el dolor
De una f*** que todo alcanza
De ahí- es como nace un campeón No more blood, no more pain
No más ven watch the way
Wave your flag, and I'll wave mind
We gotta shift the paradigm I'll fight for my country
You fight for your country
We see the victory
They'll get that victory
Man a man, heart to heart
Face to face worlds apart
You and I we're champions
Champions, champions I'll fight for my country
You fight for your country
We see the victory
They'll get that victory
Man a man, heart to heart

Face to face worlds apart
You and I we're champions
Champions, champions In the end it's all [?]
You can [?]
Sometimes [?]
But In the end it's all [?] Campeones en Panamá;
Champions in América
Campeones Champions Campeones Champions
Campeones en Panamá;
Champions in América
Campeones Champions Campeones Champions
Campeones en Panamá;
Champions in América
Campeones Champions Campeones Champions De la condición más dura
De allí- es donde nace un campeón
Y nos hicimos luchando
Y eso no fue coincidencia Campeones en Panamá;
Champions in América
Campeones Champions Campeones Champions
Campeones en Panamá;
Champions in América
Campeones Champions Campeones Champions
