Healing Time

Denison Witmer

you don't feel at home
underneath our Pennsylvania sky
covered in guitars
deep inside the music
there's a place for you

your parents and your friends
you don't think that we know how you feel
waving to your car
if we had our choice we'd go along with you

*we could take a drive
cities and street lights
pass you by

we could take a drive
you should give your heart
healing time

i have been where you are
i am well aware that there is hurt
that never goes away

i have been with you
things i know will not let your hurt carry you

where the river bends
i would like to take you there on sunday
i think it would be good
for you to watch the quiet water move

*we could take a drive...
