

Wagon Load of Love

[Jim Reeves](#)

I've got a wagon load, a wagon load of love
All I need is a pretty little girl, to give my heart a shove
I've got a basket full, a basket full of kisses
Won't you come and ride upon my wagon load of love? We'll ride, ride, ride down lover's lane together
Side by side in every kind of weather
This wedding band will fit your hand like a brand new glove
So, won't you come and ride upon my wagon load of love? I've got a wagon load of things to keep us happy
There'll be girls to call you mom and boys to call me pappy
All I need is a pretty little girl, to give my heart a shove
So, won't you come and ride upon my wagon load of love? We'll ride, ride, ride down lover's lane together
Side by side in every kind of weather
I've got a wagon load of things to grant your wishes
All I need is a pretty little girl to help me wear the britches
This wedding band will fit your hand like a brand new glove
Won't you come and ride upon my wagon load of love?
