

# Released Damnation (outtake)

## Aura Noir

My heart sets afire the seas  
The burning waves crush mountains of dreams  
Eternal the fear of torture  
Released damnation forever Come to my shores and I shall crucify your soul  
Feel the violent steel  
Feel that Satan's won And I am the wind  
I'll blow through miles of burning souls  
And through heaven's gates  
Search through halls of white and chambers of gold  
Then I'll kill you again
