Dark Clouds

The Rakes

I found this girl, same age as me
Something 'bout her seemed so sweet
Thought one day we could both meet
And not just chat about what's on TVMet her brother, when he were cowboy
Met two others before a troubleThose dark clouds seem to follow us all
Drown my girl and I started to fall
And I don't know, ohhAfter the suicide, my girl's brother and I
Tried to stay dry from those dark cloudsThose dark clouds seem to follow us all
Drown my girl and I started to fall
And I don't know, ohhThose dark clouds seem to follow us all
Drown my girl and I started to fall
And I don't know, ohhMum thinks that I've been doin' my homework
Dad don't know I, I haven't left the house all dayWe both know that the brother had to go
[Incomprehensible]
So we both know, ohh
