

# Careless Love

**Hugh Laurie**

Love oh love  
Oh careless love  
Love oh love love love love  
Oh careless love You make me  
You make me weep  
And you make me  
You make me moan  
You make me leave  
My happy home Don't you never  
Drive a stranger  
From your door  
Don't you never  
Don't you never never never  
Drive a stranger from your door It may be your sister  
Or your brother  
You'll never know  
Don't you never drive a stranger  
From your door Careless love  
You drove me  
Through the rain and snow  
Careless love  
You drove me, you drove me  
Through the wind and snow You robbed me  
Out of my silver  
And you robbed me  
Out of my gold  
I'll be damned  
If I let you  
Rob me out of my soul
