Greatest Year

Ruben Paz

Order up a drink imma need some more
heny I need plenty what the fuck you think
what you thought it was
put me in the game now you know what's up
why you acting different
I don't know maybe cause I'm to ambitious
maybe cause I'm about to miss it maybe you ain't in my vision
came up, on top now, promise I won't stop now didn't want me then only love me cause I'm hot now summer nights, uptown, best times I mean that, stressed out I'll be there, real love we need that fucked up is all good thank god im still here lost some gain some A1 since day one new year same shit imma need the change quick imma need the new whip just to make the lane switch

order up a drink imma need some more heny I need plenty what the fuck you think
what you thought it was
put me in the game now you know what's up
if you're getting money going throw it up
if you making moves throw your deuces up
if they're hitting on you're gonna show em up
threw me in the game swear things gonna change like

working over time imma need the toes
always moving silence but I do the most
you know how it goes
watching when you hide never when you love
I ain't even tripping
I'm just kicking back you know what I'm zipping
like my bottle dick just like my women
is she acting up we ain't even stressing

moving up I made it here calling this my greatest year
waiting on my time
had to face my greatest fears
lose it all, gain it back, took a chance, I did that
one shot can't miss that, first place I did that
been there, done that, had less but get back, need more right now, might just go take that, can't wait for no one
I'm on my low son, can't stand the bottom
I'm on my way up

order up a drink imma need some more heny I need plenty what the fuck you think
what you thought it was

put me in the game now you know what's up
if you're getting money going throw it up
if you making moves throw your deuces up
if they're hitting on you're gonna show em up
threw me in the game swear things gonna change like

got my money right now, right now
haters in the way tell them better pipe down, pipe down
yeah, make a shot in my mouth
see me rolling in a whip there getting all the shit like
got my money right now, right now
haters on the way tell them better pipe down, pipe down
yeah make a shot in my mouth
see me rolling in a whip there getting all the shit Like
