As (Seasons)

Har Mar Superstar

Come into the warmth
I've had a fire burning here for you all day, that's my way
Girl, take off your sexy snowsuit
Put back on your moon boots and we'll play, this winter dayWe've got to get these wet clothes off
Stay in and have a roll around as the seasons change
Freaky, freezy, taunt and tease me, make it hot 'cause I'm too easy
As, that's where that next as comes inLet's step outside and see the horny neighborhood
Kids get set free just like bunnies
Libido hibernation terminates when chemicals hit brains
On this spring dayWe can watch the clothes all peeling off
As the sun will keep on creeping away as the seasons change
I'm happy lying in the grass
Content we're searching for ass too as the seasons changeChange, time will tell
As the seasons changeBreak out the sunblock, yeah, take it off
Your bikini lines will fade, they'll go away
I got the flip flop and the Popsicle
So we won't overheat this summer dayLet's set the scene with candlelight
The ocean breeze will serve us right as the seasons change
Rooftop with barely nothing on
Can't see but I know the people are looking at as my nudityGet out your creepy thing
'Cause Halloween is sneaking up our way, oh it's spooky
Ooh, I can see your breath
You're bound to get your death without no sleep this autumn dayThe leaves will turn to deeper shades
And the children sing, ring ring, go away as the seasons change
Back to school, you're a bigger man
One year closer to your degree as the seasons change
Change
