

Different For Girls

Gavin DeGraw

Oh you just don't know
What you do to me
You like coming close
Til you can barely breathe You're out with your friends
But it's only you
That looking at, thinking baby yes I do Is it even fair'
And are we to blame'
Before we're too deep
And I don't even know your name Just another night
Of another week
You can groove so hot
But don't have to speak There's just no way
That I'm gonna hear the words you say
'Cause you know that boys don't cry
Why you been hung up on every other guy' [Chorus]
And I know that it's different for girls who care
But as long as we are headed somewhere
I know it's different for girls
That's what you are
Yea though I know I just don't understand
Why it's different for girls So we have a few
And a little more
And a little more
And a little more Til we both have gone
And you just give in
Yea but go til we forget about the shape we're in The night is young
The dress is new
And so too much time
Thinkin' what I need to you
And girl
We're losing control
You know there's There's just no way
That I'm gonna hear the words you say
'Cause you know that boys don't cry
Why you been hung up on every other guy' [Chorus]
And I know that it's different for girls who care
But as long as we are headed somewhere
I know it's different for girls
That's what you are

Yea though I know I just don't understand
Why it's different for girls I don't understand why
I'm searching and I need to know
Just take me by the hand
Why' To get a little love I'd risk it all All my trouble, didn't care I am the weakest
I'm in trouble and I really need some help But there's just no way
That I'm gonna hear the words you say
'Cause you know that boys don't cry
Why you been hung up on every other guy' [Chorus]
And I know that it's different for girls who care
But as long as we are headed somewhere
I know it's different for girls
That's what you are
Yea though I know I just don't understand
Why it's different for girls All this pain and suffering
Yea though I know I just don't understand
Why it's different for girls Headed somewhere
Is it headed somewhere
Tell me if we're headed somewhere
