Haw

16 Horsepower

Don't let your mind do all your walking
And boy you'll stumble every time
That road I've seen the devil stalking
And dealin' only with the dyin'And gonna let the door hit 'em
Where my hound dog shoulda bit 'em
Leave him open, leave 'em there
I don't careBut baby
Don't look down
Keep your
Keep your arms around meThen he showed me how he caught ya
Like a fish upon the line
Slow reelin' in he brings you closer
Like a poison that takes its timeRoll over little lady
Back and forth and twice around
You're gonna bleed to get away
There ain't no other way roundBut baby
Don't look down
Keep your
Keep your arms around meHey, hey little baby
There, there little boy
Where, where little angel
Over here my joyHey, hey little baby
There, there little girl
Where, where little angel
Over here my pearlBut baby
Don't look down
Keep your
And keep your arms around me
