

# Blindside

## Zebrahead

Hey man, are you doing alright?  
Is that noose around your neck tied on too tight?

Ha ha, told you so  
You got sucked undertow  
One last chance to let the shit go  
Get away get away, it's a raw deal  
Down play, disarray it's a third wheel  
Unplay everyday to know what's real  
Mayday, mayday lost your ideal  
There is no ideal, feel me  
High impact blindside tonight  
When I was young, never compromised  
Low impact blindside tonight  
When I was young, never had to try  
Blindside, woah  
Blindside, woah  
Blindside

Hey man, have you been up all night?  
Do you got to get numb so you can feel right?

Ha ha, told you so  
Too high, vertigo  
One last chance to let it all it all go  
Get away, get away, it's a raw deal  
Down play disarray, it's a third wheel  
Unplay everyday you know what's real  
Mayday, mayday lost your ideal  
There is no ideal, feel me  
High impact blindside tonight  
When I was young, never compromised  
Low impact blindside tonight  
When I was young, never had to try  
Blindside, woah  
Blindside, woah  
Blindside

And the shot took a piece of me  
Fade in, fade out, if that's what you got  
Flash flood focus over me  
Fade in, fade out, if that's what you got  
And the shot took a piece of me

Fade in, fade out, is that what you got?  
And the shot took a piece of me  
Fade in, fade out  
And the shot took a piece  
Fade in, fade out of me  
High impact blindside tonight  
When I was young, never compromised  
Low impact blindside tonight  
When I was young, never had to try  
High impact blindside tonight  
When I was young, never compromised  
Low impact blindside tonight  
When I was young, never had to try  
Blindside, woah  
Blindside, woah  
Blindside, woah  
Blindside  
Blindside  
Blindside
