Hand On Your Heart

Steps

On the phone for hours at a time
Has your voice changed or is it a trick of the line
All alone I'm losing my mind
Wonderin' what you'll be doin' tonight
I still feel you holdin' me as clear
As the day we said goodbye
Words can change so easily
When they cross a million miles
Hand on your heart, heart on your sleeve
Are you tellin' me
When we're apart, you still believe
We are meant to be
Even if you say the words
You know I long to hear
I wanna be sure so tell me once more
Hand on your heart
(Hand on your heart)
On your heart
Losin' sleep can't take anymore
Tired of wonderin' if you really miss me at all
I just need to be reassured
If you love me what your waitin' for
I still feel you holdin' me as clear
As the day we said goodbye
Memories fade so easily but am I still in yours
Like you're in mine
(You know that's all I need baby tell me honestly)
Hand on your heart, heart on your sleeve

Are you tellin' me
When we're apart, you still believe
We are meant to be
Even if you say the words, you know
I long to hear
I wanna be sure so tell me once more
Hand on your heart
I still feel you holdin' me tellin' me love will always be
Don't know if I can wait
Until I see your face

I need you to tell me
Hand on your heart, heart on your sleeve
Are you tellin' me
When we're apart, you still believe
Tell me please
Hand on your heart
Are you tellin' me
When we're apart, you still believe
We are meant to be
Even if you say the words you know
I long to hear
I wanna be sure so tell me once more
Hand on your heart
(Hand on your heart)
I wanna be sure so tell me once more
Hand on your heart
