Oblivius

The Strokes

Untame me
It's not my midnight yet
Act like a puppet, think like sheep (Wall Street)
Untame me
Cause this is my best advice
We're gonna give it back to you, some other day

Untame me, it's time
I know the way uptown
Unchain me
I've waited for the time
Get you with your pajamas on

Take off from the runway
Thinking of a sad day
Racing down the highway
Looking at me sideways

What are you standing on?
What are you standing on?
What are you standing on?
What are you standing on?

Untame me
It's not my midnight yet
Act like a wolf but think like a sheep (Wall Street)
Untame me
Cause this is my best advice
We're gonna give it back to you, some other day

Take off of the runway
Thinking of a sad day
Playing with the new toys
Looking at the sad boys

What side are you standing on?
What side you standing on?
What side are you standing on?
What side you standing on?

And we take, what we hide from them
And then say, "What do you want from me?"

The way, somewhere
Way to know
Any way, the way
The same way to know
And the way for some
That the devil will show
Away, somewhere
My love, get it in your head
Get out of yourâ€¦

What side are you standing on?
What side you standing on?
What side are you standing on?
What side you standing on?
