

Till the End of Time

Starpoint

I'll never give you reason to doubt my feelings.
I'll cherish every moment that I spend with you.
I'll be lover, I'll be friend, oh I'll be there beside you.
Like no one you ever knew.

You take my breath away Please believe me when I say
You can depend on me
You know how long I've waited
Nothings gonna change my mind oh no
Your love is all I need
And I hope you hear me say this
But, I want you til the end of time.

LA la la la la la la ooh

You step right out of my dreams and into my world love
You touched every emotion from the start.
And when road gets rough you have someone you can turn to
I can't put into words the joy you bring my heart
You take my breath away please believe me when I say

You can depend on me
You know how long I've waited(so long)
Nothings gonna change my mind oh no
Your love is all I need
I know you heard me say it, but I want you till the end of time

Never dreamed a kiss from you can be such a romantic feeling
And happiness was here all the time

You can depend on me
You know how long I've waited
Nothings gonna change my mind oh no
Your love is all I need
And I know you heard me say this
But, I want you til the end of time

You can depend on me
You know how long I've waited
Nothings gonna change my mind oh no

Your love is all I need
You heard me say this
I want you til the end of time
Want you til the end (of time)
