

# Sanctuary

## The Rumour Said Fire

You know  
It's kinda fucked up but  
It's kinda like you're born to lose, you know what I mean?  
Stallion, get your own nigga  
Coke boy  
Montana  
You already know that  
All this money I be squaring eh  
You already know that  
All this money I be squaring eh  
All this money I be squaring eh  
Bring your love baby, I'mma bring my shine  
Bring the drugs baby, I'mma bring my pain  
You already know that  
All this money I be squaring eh  
All this money I be squaring eh  
I don't know what's what  
I never get it  
Or get it and lose it  
I mean it's sanctuary baby  
You know what they say  
It's the game of life  
We hungry the playa twice  
You heard  
A car, big mansion in the desert  
Tryna make a deal with the devil  
I wonder though  
Born to lose, ain't it?  
Rules of engaging  
Glued to the pavement  
Send it all  
My first flip was when the needle hit my vein  
Lost at odds is when the drugs fix the pain  
Pray for me tatted on my neck  
Fuck money, I was dyin for my respect  
I was higher getting whipped  
Was a way of life  
Stranded on the block  
Fiends buying worth, only thing in sight

Had to pay in life

Mama working 3 job, father leaning, he high

My home boy on the run, he hot

Montana!

You already know that

All this money I be squaring eh

You already know that

All this money I be squaring eh

All this money I be squaring eh

Bring your love baby, I?mma bring my shine

Bring the drugs baby, I?mma bring my pain

You already know that

All this money I be squaring eh

All this money I be squaring eh

Head shot, been in doubt

God got a plan for you

Bounce back, hit the block

OG got them grams for you

Get it on your own, nobody gave a hand to you

Now you hot, spinning ball shows, 30 grand for you

God protect the child, deck the hall is on

Almost lost it all for everything he own

Put that on everything

Thought I knew it all but I ain?t know anything

Get it with my dog, had to get my weight up

Flip the K?s up

Turn around homie, lift your grades up

Never put my legs up

I?m working out, it?s working out

They wonder how

Hundred mouth, want a nigga gunnin til the sun is up

You already know that

All this money I be squaring eh

You already know that

All this money I be squaring eh

All this money I be squaring eh

Bring your love baby, I?mma bring my shine

Bring the drugs baby, I?mma bring my pain

You already know that

All this money I be squaring eh

All this money I be squaring eh
