Victim Of Fate

Squealer

I was born in the rotten part of the town
The biggest trap I had seen
Wherever you'll go and wherever you'll get to
Evil is aroundMy mother's a bitch, my father's a killer
Gettin' paid for a murder
Fightin' and strugglin' the whole day
The only way to surviveWanted from law but they'll never catch me
I'd much rather die in this bloody warFly high touch the sky
Never know the reason why it ends
Victim of fate
Fly high touch the sky
Never know the reason why it ends
Victim of fateI had to kill people to save my own life
I don't wanna go to hell
I started at the bottom
I'm heading for the topI'll never return I'll never go back
To the goddamn part of the town
Headhunters won't get me 'cause I'm not stupid
But this ain't the life I dreamt ofWanted from law but they'll never catch me
I'd much rather die in this bloody warFly high touch the sky
Never know the reason why it ends
Victim of fate
Fly high touch the sky
Never know the reason why it ends
Victim of fateWhat now lonely man
Who's standing in the shadow of the streets
You're left alone with no helpin' hand beside you
You hide from the daylight livin' in darkness
You got no friends you can trust nobody
Except for yourselfThe only shade that's beside you
Is the shade of Lucifer
Laughing with a satanic smile
And his friend death sharpens his sickle
You don't wanna die do you?
But you will, you will burn in hellFly high touch the sky
Never know the reason why it ends
Victim of fate
Fly high touch the sky
Never know the reason why it ends

Victim of fateFly high touch the sky
You will die
