Walkin In The Dark

Goldfinger

There's people who get away with what you're trying to do
But I see we might not have your luck
There's people who take away what I don't have to give
And maybe that's still not quite enough
So how can you say what we have done has been misguided?
And how can you say that you're the judge?
Don't you let me down this time
I know you can't carry that weight
Try and understand the reasons why
I'm trying to explain now
Give me some replySo maybe we're walking in the dark
So maybe we're guessing
I'm taking all odds
I'm placing my bets
I'm taking my chances
Don't you let me down this time
I know you can't carry that weightTry and understand the reasons why
I'm trying to explain now
Give me some reply
Like walking in the dark
Between the lies
Try and understand now
Give me some replySo try and understand the reasons why
I'm trying to explain now
Give me some reply
So maybe we're walkin
So maybe we're guessing
Between the lies
I'm taking all odds
So try understand
I'm placing my bets
Give me some reply
Give me some reply
