Laugh Track

The Damage Manual

Area life, concrete mission with a black light
Area life, you never listen to the dog's bite
Watch what you do, every border is in front of you
Watch what you do, area life is going to follow youUncontrolling yourself, only seconds to spare
And the hand that you need is the one that's not there
Did you walk like a fraud through the slogan you wrote?
And the story you told was only good for a quoteArea life, bunker precinct with a laugh track
Area life, cultural etiquette that bites back
Do what you're told, weapon traffic without warning
Do what you're told execution with a causeUncontrolling yourself, only seconds to spare
And the hand that you need is the one that's not there
Did you walk like a fraud through the slogan you wrote?
And the story you told was only good for a quoteArea life
Area life
