

# When You Call

## Jenny Phillips

I chose the side  
I would fight on long ago  
I chose You to lead me  
Through the battles of my life  
And I've felt the power, of Your mighty hands  
Through seasons of joy  
And through strife  
And I'm listening for Your voice to guide me  
I'm listening for the whisperings inside of me

When You call  
I will run to Your voice  
I've made the choice  
To follow where You lead  
And though the way may take  
All of my strength  
I am ready to give You my all  
When You call

There have been times  
I have lost my way  
I changed my direction  
And wandered far from You  
But You never lost, Your faith in me  
Your love is constant  
Your grace is true  
And when I'm listening for Your voice to guide me  
I can feel the whisperings inside of me

When You call  
I will run to Your voice  
I've made the choice  
To follow where You lead  
And though the way may take  
All of my strength  
I am ready to give You my all  
When You call

When You call  
I will run to Your voice

I've made the choice  
To follow where You lead  
And though the way may take  
All of my strength  
I am ready to give You my all  
When You call

When You call
