

Break Me Out

Mindflow

Let's pretend, we're far away
Away from problems found each day
Silence drifts, echo fades
Raining softly, then delay
(Aww)

When I fall, if I make a mistake
Can I make an escape with you?
My confidence is draining out
My happiness is raining down on me
My ego is craving without you
I'm falling a step into darkness
Can you hear me calling, calling for you?
Will you break me out?
(Set me free)

Will you take my soul?
(Away from me)

Will you break me out?
(Set me free)

Will you take my soul?
(Away from me)

Am I lost, if I stray out to far
Would you bring me back in with you?
My confidence is draining out
My happiness is raining down on me
My ego is craving without you
I'm falling a step into darkness
Can you hear me calling, calling for you?
Will you break me out?
(Set me free)

Will you take my soul?
(Away from me)

Will you break me out?
(Set me free)

Will you take my soul?
(Away from me)

Help, I need it to swallow me up
Help, I need it to swallow me up
(Oh)

Look inside

(And never go away)
Come, bring me out
(And take away the pain)
And would you find it in your heart
(I beg you please)
And if you wanna bring me out
Set me free
